

I believe we should leave the requirements for the Technician, General, and Extra Class license as is, and bring back the Technician Plus for those who pass Elements 1 and 2. I think the 365 day period for the CESE should be exempted for Amateurs wanting to stay at Technician with limited HF privileges. For persons who pass Elements 2 and 3, that should stay @ one year. I also think the phone and voice privileges should be expanded a bit for the Technician w/ HF and General License Holders on the 10, 12, 15, 17, 20, 40, and 80 Meter Bands, and reduce the CW and RTTY a bit on these Meters.
